

FCC: Please know that we, as consumers of XM Satellite Radio, benefit from listening to XM Satellite Radio and its traffic and weather channels. It provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters or the FCC to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that consumers demand and deserve.

Because consumers pay for this service as a subscription, it should be left to the consumers to choose what content we find appropriate or inappropriate, not the FCC. First Amendment rights provide protection from censorship. Please remember and respect this right by leaving the decision making up to the consumer when it comes to broadcast services we choose and pay for.

Sincerely,  
Erin McBrayer
